

July 4, 1953

Dear Dr. Inoki:

I am happy to learn of the success of your arrangements with Professor Sonneborn. I am sure that you will find your visit with him most profitable, and you can be sure that many biologists here will be very interested to learn of your work with *T. gambiense*.

I hope you will find it convenient to visit Madison. We are 3-4 hours (by train or car) north and west of Chicago, Illinois; Bloomington is about the same distance from Chicago, south and east. I do not know whether you would prefer to stop over on your way to Bloomington from the West Coast, or to wait until you are established at Bloomington and make a special trip. In any case, I will be very happy to see you at any time. I will be on campus throughout the fall season.

Yours sincerely,
